

Students will experience the welcoming atmosphere of Gallery Stratford as they enter a hands-on workshop led by an Art Educator. The creative process will drive students as they delve into professional art materials to create their own masterpieces based on the Ontario Arts (A), Mathematics (M), Science & Technology (ST), and Social Studies (SS) Curriculum.

art in
motion II

Based on the elements of line, shape and form, and space an advanced thaumatrope will be created to animate motion of Earth and Space Systems. Students will sketch, draw and colour to make it their best work. (A, ST)

canadian
landscapes

Inspired by the Group of Seven, students will use the critical analysis process to depict Canadian Scenery and create an informed point of view on the presented pieces. Students will apply the creative process to create their own Canadian Landscape using watercolour paints and pastels. (A, SS)

'heritage
& identity'
masks

As a direct link to the Social Studies curriculum, students decide which Early Society to focus on and create a mask representing of their chosen culture. Students will use various paints and art tools to ensure peers will recognize which culture their masks are representing, relating that to others. (A, SS)

perspective

Students will explore different perspectives as they design their own city or landscape using 2 & 3D shapes, printmaking as well as mixed media. With a focus is on line, value, and space students will act as architects and planners creating a unique place. (A, M, SS)

exhibit
based

As students explore the Gallery they will be challenged to use the critical analysis process to create their point of view on the exhibitions and be inspired to create their own, grade based, masterpiece as it reflects the works of local artists. (A, M, ST, SS)
